Objective

To obtain a position as a Java Developer where I can utilize my programming, analytical, and problem-solving skills to develop efficient and reliable applications while growing as a professional in a collaborative environment.

Education

B.Sc. in Computer Science (Final Year) – KTHM College, Nashik

Technical Skills

- Programming Languages: Java, JavaScript, Python, C, HTML, CSS, PHP
- Frameworks & Tools: Spring Boot, Hibernate, JSP, Servlets, Maven, Git, VS Code, Eclipse
- Database: MySQL, MongoDB
- Web Development: HTML5, CSS3, Bootstrap, JavaScript, React (basic)
- Concepts: OOPs, Data Structures, Algorithms, MVC Architecture, RESTful APIs

Project: Plant Nursery Management System

The Plant Nursery Management System is a Java-based web application designed to manage plant inventory, customer orders, and billing efficiently. It allows users to browse plants, check availability, place orders, and track purchases.

Technologies Used:

- Frontend: HTML, CSS, JavaScript, Bootstrap
- Backend: Java, JSP, Servlets, JDBC
- Database: MySQL
- Tools: Apache Tomcat, Eclipse IDE

Key Features:

- User authentication and role-based access (Admin & Customer)
- CRUD operations for managing plant details and stock levels
- Secure payment and order tracking system
- Automated billing and receipt generation

Professional Summary

An enthusiastic Java Developer with a solid understanding of Object-Oriented Programming, database management, and web application development. Passionate about developing scalable software solutions and continuously improving skills through hands-on learning and real-world projects.

Certifications & Achievements

- Completed certification in Java Programming from NPTEL (if applicable)
- Participated in college-level hackathons and coding challenges
- Developed and deployed a personal portfolio website using MERN stack (in progress)

Soft Skills

- Problem Solving and Logical Thinking
- Team Collaboration and Communication
- Time Management and Adaptability
- Eagerness to Learn and Explore New Technologies
